

THE WHITE CANVAS

BOGAVANTE

Dreams are made in the void.

This is where an electronic music-production starts: a white canvas that needs to be painted with ideas. The source of inspiration can be anything, e.g. a chord-progression, a synthesizer-sequence, a new sound, a severe flooding, a train-trip or parachute-jump. This and more can be found on this recording. Artificial intelligence also has contributed to it. As always the styles of music range from film-score via old-style electronic music to songs with vocals. **Everything** was produced by electronic means, even the lyrics. I'll not go further into the details of the production of this album, but I can say, that many things were more complicated to make than it seems. Without advanced technology the making of this album would not have been possible. Thanks to all the engineers and programmers who helped me carrying out my ideas.

Enjoy
